PROJECTS

QueenBee-Core-Srv (Self-hosted server), Pune, India

- Built and hardened a self-hosted infrastructure on a repurposed laptop (ParrotOS) using nginx, Docker, and Tailscale (MagicDNS, Server, Funnel).
- Implemented automated container deployments and secure remote access to ensure reliable, low-cost hosting and improved service resilience and maintainability.

WHealth (Personal Finance Manager), Pune, India

- Created WHealth to help users track income, expenses, savings, and net worth in real time.
- Built a responsive Next.js UI with interactive charts for spending trends and financial health metrics, and serverless REST APIs for secure data synchronization.
- An AI-based spending analyzer provides personalized budgeting tips; the app is deployed on Vercel with CDN and attention to validation and data security.
